

PROFESSIONAL EXPERIENCE

Kovo
Fintech public benefit corporation helping people build credit

- Customer Experience

April 2026 - September 2026
- AI AGENT DEPLOYMENT:** Partnered with Decagon's AI Implementation Managers to build and launch an AI email agent, live in July 2026 and expanded to the full support inbox within two weeks.
 - AGENT WORKFLOWS:** Wrote the Agent Operating Procedures behind support workflows, from refunds to escalations.
 - TESTING & QA:** Refined procedures through pass/fail simulation runs of about 50 tests, two to three times a day, plus preview and live testing, reaching a 98%+ pass rate before launch.
 - PERFORMANCE:** Handled 5,600+ email conversations at 62% deflection overall, rising from 52% in July to 68% in early September.
 - WORKFLOW AUTOMATION:** Built a Notion database synced to Gladly via Zapier, webhooks, and API calls, letting the team search, edit, and delete Gladly templates from Notion.

allUP
Professional social network using video interviews to reimagine hiring

- Customer Experience Manager

January 2025 - February 2026
- CUSTOMER EXPERIENCE LEADERSHIP:** Owned the customer experience function at allUP, building ticketing workflows, documentation systems, and support processes that established a scalable foundation for client support.
 - PRODUCT INSIGHTS:** Partnered with founders and product teams to act as the voice of the customer, structuring qualitative and quantitative feedback and Front Analytics trends (workload, resolution times) into actionable insights that shaped the product roadmap.
 - OPERATIONS MANAGEMENT:** Managed customer communication across email, Slack, and social channels, handling 17,000+ messages annually while maintaining systematic tracking and resolution workflows.
 - KNOWLEDGE BASE DEVELOPMENT:** Built and maintained a comprehensive technical knowledge base for Front and Claude AI integration, creating documentation that enabled both customer self-service and internal troubleshooting.
 - AI AUTOMATION:** Collaborated with engineering leadership to develop an AI-powered customer support system using OpenAI Agents SDK that automatically generates contextual email draft replies.
 - AI AGENT DEVELOPMENT:** Built and trained specialized AI agents for message categorization and response generation, achieving 98%+ accuracy through iterative prompt engineering, evaluation datasets, and manual review of 100-300 traces per batch.
 - CROSS-FUNCTIONAL TOOLING:** Built a Slack-to-Linear issue submission workflow enabling team members to report bugs with structured information, linking tickets to Slack threads so engineering could track discussions and context in one place.

Advekit, Inc.
Mental health platform matching clients with therapists and handling insurance billing

- Senior Patient Onboarding Coordinator, Customer Experience

June 2022 - April 2024
- OPERATIONAL SYSTEMS:** Built a comprehensive Notion workspace that enhanced transparency and refined operational processes, increasing sales revenue and strengthening client retention through improved visibility and streamlined workflows.
 - ACCOUNT & DATA MANAGEMENT:** Managed patient onboarding and client accounts through their first sessions, and consolidated client data and streamlined account reconciliations, increasing sales through improved data accuracy.
 - RETENTION CAMPAIGNS:** Developed retention campaign materials including patient explainers and targeted email sequences that reignited revenue growth among inactive clientele, bringing dormant accounts back into active treatment.
 - WEB DESIGN:** Designed and created engaging web pages to attract mental health providers, optimizing for user engagement and conversion rates that supported provider acquisition goals.

- Patient Onboarding Coordinator

July 2020 - June 2022
- INSURANCE & REFERRALS:** Verified plan coverage nationwide through clearinghouses like Availity, communicated anticipated costs to clients and providers, and led referral submissions to insurers to accelerate time-to-treatment.
 - CRM AUTOMATION:** Employed CRM platforms such as HubSpot to automate targeted outreach campaigns, enhancing efficiency and effectiveness of patient acquisition efforts.
